

Writer ≈ Word Processing

Writer has all the features you need from a modern, full-featured word processing or desktop publishing tool. It's simple enough to use for a quick memo, but powerful enough to create complete books with contents, diagrams and indexes. You're free to concentrate on your message, while Writer will make it look great.

Calc ≈ Spreadsheet

Calc is the spreadsheet program you've always needed. Our new-comers find it intuitive and easy to learn. Professional data miners and number crunchers will appreciate the comprehensive range of advanced functions.

Impress ≈ Presentations

Impress is an outstanding tool for creating effective multimedia presentations. Presentations can be enhanced with 2D and 3D clip art, transitional styles and special effects, high-impact drawing tools and animations.

Font settings are part of "Default style"
not local formatting

Font: Liberation Sans

Background: White 100%

Note: if the bottom "green footer bars" do not show, click on the edge of the "frame" then "Arrange->Send to back"

- Looking for help? With a vast native language community effort, there are no language barriers with LibreOffice.

Line spacing 120%

Just copied from earlier brochure to see what it looks like.

Is no longer an image.
Select panel, right click, properties, border to see it for yourself.

Changed front cover.
It's a matter of taste, but here the main focus is on LibO, not on different OSes.

"The free office suite the community has been dreaming of for 12 years."

Version 4.0
for **Windows,**
Mac OS X,
and **GNU/Linux**
